Wildlife Reserves Singapore

Wildlife Reserves Singapore (WRS) is dedicated to the management of world-leading zoological parks—Jurong Bird Park, Night Safari, River Safari and Singapore Zoo—that aim to inspire people to value and conserve biodiversity by providing meaningful and memorable wildlife experiences.

Throughout the pandemic, WRS has retrained and retained employees by providing opportunities for staff to be cross-deployed to new roles while simultaneously alleviating manpower constraints. WRS also launched a series of virtual innovation tools workshops for the non-essential services teams during the Circuit Breaker. The workshops equipped participants to employ creative solutions to improve guest experience in the parks. Active and frequent staff communication from senior management team have kept employees well-informed and allayed staff anxieties about job security and their wellbeing. In addition, a MandaiCares Hardship Fund was established to help employees facing financial hardships.

One of Asia’s foremost garden destinations, Gardens by the Bay is a premier horticultural attraction that showcases the best of garden artistry.
